

CAL PROP 65 Policy Statement

Entrepix Inc. is committed to providing our customers with the highest quality products. Additionally, we support the responsible reporting of toxic chemicals throughout our global supply chain.

Cal Prop 65: The California Safe Drinking Water and Toxic Enforcement Act of 1986, commonly referred to as “Proposition 65”, is a right-to-know law that is unique to the State of California. The goal of “Prop 65” is to ensure that individuals in the State of California are informed about possible exposure to chemicals known to the State of California to cause cancer and/or reproductive toxicity. Under the law, the California Office of Environmental Health Hazard Assessment (“OEHHA”) is tasked with maintaining a list of chemicals and updating the list annually.

To date, there are over 900 chemicals listed by OEHHA, which list can be found at <https://oehha.ca.gov/proposition-65/proposition-65-list>. Historically, only manufacturers of end products had an obligation to notify Californians about significant amounts of chemicals in the products they purchase for their homes or workplaces. In late 2016, OEHHA adopted new regulations that went into effect on August 30, 2018. Proposition 65 now applies to suppliers of components used in end products to ensure that information about chemicals used in the components is communicated to Californians who might encounter the chemicals during the development, manufacture, or use of the end products.

To comply with Prop 65, Entrepix acknowledges that we as suppliers shall provide a “clear and reasonable” warning for listed chemicals unless exposure is low enough to pose “no significant risk” of cancer or is significantly below levels observed to cause birth defects or other reproductive harm. *(A Prop 65 warning does not necessarily mean a product is in violation of any product-safety standards or requirements).*

Entrepix recognizes this initiative may require additional time and effort on the part of our suppliers and we appreciate their ongoing support in this important effort.
