

Conflict Minerals Policy Statement

Entrepix Inc. is committed to providing our customers with the highest quality products in addition to the responsible sourcing of minerals throughout our global supply chain.

Per section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act. <https://www.sec.gov/opa/Article/2012-2012-163htm---related-materials.html> Entrepix performs the necessary due diligence to ensure none of the 3TGs (Tantalum, Tin, Tungsten, Gold) that may be present in the materials we source for our products, originated in the Democratic Republic of the Congo or it's adjoining countries.

We focus our compliance efforts in the following areas:

- Conducting a reasonable country of origin inquiry with our global supply base as part of our conflict minerals due diligence process.
 - We collect and evaluate supplier responses to queries as part of our supplier scorecard evaluations.
 - We request suppliers to identify products in their supply chain that contain conflict minerals and validate the country of origin of these minerals.
 - A contractual clause requiring compliance with our conflict minerals initiative as part of our standard Terms and Conditions.
 - Requiring our suppliers comply with any applicable laws and regulations regarding conflict minerals and assist us in meeting our obligations under current laws and regulations.

Entrepix recognizes this initiative may require additional time and effort on the part of our suppliers and we appreciate their ongoing support in this important effort.
